Ms. Johnson called the meeting to order at 4 pm.

I. Public Comment

There being no comments, Ms. Johnson continued with the agenda.

II. Approve Minutes

Ms. Johnson that the minutes would stand as approved with no objection.

III. Presentation Regarding Drainage and Road Issues in Settlement Communities

IV. Questions/Discussion

Ms. Johnson reviewed pictures showing flooding throughout the settlement communities. She also noted the numerous accidents that occur because of water on the road and flooding, and that the erosion of the ditches is an issue as well.

The Task Force discussed the different types of drainage in the settlement communities and the issues they are experiencing in regard to drainage and flooding.
Mr. Eric Adams, Charleston County, stated that they would like to have exact areas where the issues exist and establish a point of contact. He introduced fellow associates with Charleston County.

Ms. Repik addressed the issue of flooding and stated that area is connected. She stated that they are constantly reviewing these issues to see what solutions can be utilized.

The Task Force discussed how the community can be better notified of new development projects. They also discussed the amount of development that is occurring and how this could be better addressed.

Mr. Wes Linker, Charleston County, discussed the process of having a private road becoming public and being maintained by Charleston County.

Mr. Linker reviewed the maps with the Task Force and asked for input on areas of concern.

There being no further business, the meeting adjourned at 6:05 pm.
