   a. Discussion of pedestrian path on Deer Creek Road
Mr. Aton provided an overview of the Micromobility Program and history of the pedestrian path on Deer Creek Road explaining how vehicles and pedestrians interact and the traffic calming effects that result. Discussion between the Committee and staff.

b. Update on the resurfacing of Darrell Creek Trail

Mr. Aton reviewed how roadways are scored for prioritization for resurfacing. He explained that Carolina Park is still under construction, and it would be counterproductive to resurface the roadway until the last phase of Carolina Park is complete. This is based on the fact heavy equipment and construction material hauling would cause damage to the newly resurfaced roadway. Discussion between the Committee and staff.

c. Update on the replacement of street signs

Mr. Aton provide the Committee with an update on the replacement of street signs in Commonwealth per the Street Sign Replacement Program policy.

5. Update – ongoing projects

Mayor Haynie stated that the Isle of Palms has selected their preferred alternative for the restriping of the Isle of Palms Connector and that the Town would have an opportunity to express their preferred alternative.

Mr. Aton provided the Committee with updates on the Bessemer Road sidewalk, Patriots Point Gateway Intersection Improvement, Vaughn Ed Kee Parkway, Billy Swails Boulevard and All American Boulevard projects. Discussion between the Committee and staff.

6. Adjourn

There being no further business, the meeting was adjourned at 9:56 am.
