

The Town of Mount Pleasant is creating a Community Forest Management Plan!

The community forest is made up of all the trees in the Town on public and private land. This includes trees on the streets, in parks, public spaces, and your yard!

We would like to hear your comments and suggestions to develop the Community Forest Plan. A survey is now available for you to provide feedback about items such as where you would like to see more trees planted, and what goals you would like the Town to set. You can take the survey at the link below or scan the QR code with your phone. Share this with your family, neighbors, and friends!
